INTERVENTION

The following process should be followed when a staff member becomes aware that a student is experiencing a crisis that may involve risk of harm to self or others:

- When a staff member suspects or has knowledge of a student's suicidal intentions, he/she shall promptly notify the Superintendent, Principal, or designee, who shall then notify the student's parents/guardians as soon as possible. The student may be referred to mental health resources in the school or community.
- Students shall be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

IMMINENT RISK

- There is immediate danger to the student's self or others (for example, possible presence of a weapon or other means the student intends to use to harm self or others).
- There is a suicide attempt in progress (for example, the student has taken a drug or medication overdose).

The staff member who suspects or has knowledge of imminent risk will do the following:

- Provide for continuous supervision of the student at risk until an emergency responder arrives, keeping personal safety in mind. Evaluate the environment for safety and remove access to methods or lethal means.
- Notify the administrator or designee.

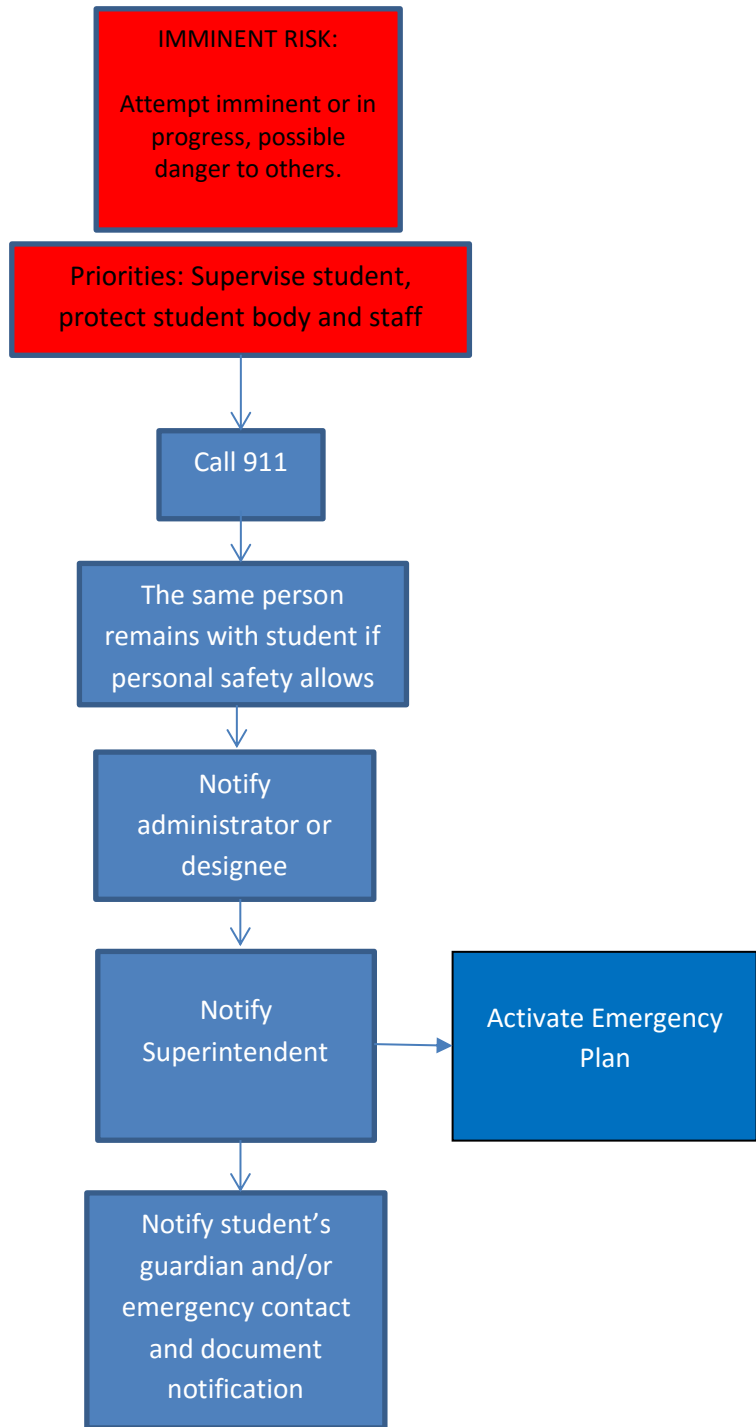

The administrator or other designee will do the following:

- Call 911 or designate a person to call. Be mindful that in the presence of a weapon or danger to others, emergency medical personnel will need the scene secured by law enforcement personnel before they can intervene.
- Notify the Superintendent.

Depending on the situation, the administrator or designee will:

- Even with no danger to others, if a suicide attempt is imminent or in progress, other students need to be removed quickly and calmly from the vicinity. (Execute emergency plan.)
- Notify the student's guardian and/or emergency contact and document the time and content of the conversation.
- Fill out the district's incident report forms.

POSTVENTION

Fort Sage Unified School District recognizes that the death of a student, whether by suicide or other means, is a crisis that affects the entire school and community. In the event of a student's death, it is critical that the school's response be swift, consistent, and intended to protect the student body and community. In the case of a death by suicide, other concerns such as the prevention of [suicide contagion](#) will be taken into account.
