Part I - General Administrative Share of Plant Services Costs	
California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (mair operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attri administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as percentage of square footage occupied by general administration.	buted to general
A. Salaries and Benefits - Other General Administration and Centralized Data Processing	
1. Salaries and benefits paid through pay roll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)	
(Functions 7200-7700, goals 0000 and 9000)	329,267.00
2. Contracted general administrative positions not paid through pay roll	
a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a	
contract, rather than through pay roll, in functions 7200-7700, goals 0000 and 9000, Object 5800.	
b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general	
administrative position paid through a contract. Retain supporting documentation in case of audit.	
B. Salaries and Benefits - All Other Activities	
1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)	0.005.074.00
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000)	3,265,374.00
C. Percentage of Plant Services Costs Attributable to General Administration	10.00%
(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6)	10.08%
Part II - Adjustments for Employment Separation Costs	
When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition	
to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal	
or mass" separation costs.	
Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board	
policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs	
may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation	
costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter	
these costs on Line A for inclusion in the indirect cost pool.	
Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their	
employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden	
Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal	
programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general	
administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.	
A. Normal Separation Costs (optional)	
Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that	
were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400	
rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool.	
Retain supporting documentation.	
B. Abnormal or Mass Separation Costs (required)	
Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to	
unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be	
moved in Part III from the indirect cost pool to base costs. If none, enter zero.	0.00

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	376,301.92
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	(23,863.58)
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect	
cost rate (4.18%) times Part III, Line B19); zero if negative	111,250.12
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of	
(approved indirect cost rate (4.18%) times Part III, Line B19) or (the highest rate used to	
recover costs from any program (4.36%) times Part III, Line B19); zero if positive	0.00
D. Preliminary carry-forward adjustment (Line C1 or C2)	111,250.12
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	
adjustment is applied to the current year calculation:	not applicable
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
LEA request for Option 1, Option 2, or Option 3
